School Record and Retention Management Policy

Ratified by Governors : December 2016

School Record and Retention Management Policy

Date of Renewal : September 2017

Member of staff with overall responsibility: Mr. M. Mullins

Governing Body Sub-Committee with reviewing responsibility: Finance and Personnel

The governing body is responsible for maintenance of this policy.

Introduction

The School recognises that the efficient management of its records is necessary to comply with its legal and regulatory obligations and to contribute to the effective overall management of the institution. This document provides the policy framework through which this effective management can be achieved and audited. It covers:

- Scope
- Responsibilities
- Relationships with existing policies

3. Scope of the policy

This policy applies to all records created, received or maintained by staff of the school in the course of carrying out its functions.

- Records are defined as all those documents which facilitate the business carried out by the school and which are thereafter retained (for a set period) to provide evidence of its transactions or activities. These records may be created, received or maintained in hard copy or electronically.
- A small percentage of the school's records will be selected for permanent preservation as part of the institution's archives and for historical research.

4. Responsibilities

The school has a corporate responsibility to maintain its records and record keeping systems in accordance with the regulatory environment. The person with overall responsibility for this policy is the Head of the School.

The person responsible for records management in the school will give guidance for good records management practice and will promote compliance with this policy so that information will be retrieved easily, appropriately and timely.

Individual staff and employees must ensure that records for which they are responsible are accurate, and are maintained and disposed of in accordance with the school's records management guidelines.

5. Relationship with existing policies

This policy has been drawn up within the context of:

- Freedom of Information policy
- Data Protection policy
- Legislation or regulations (including audit, equal opportunities and ethics) affecting the school.

6. Safe disposal of records which have reached the end of their administrative life

i. Safe destruction of records

Where records have been identified for destruction they should be disposed of in an appropriate way. All records containing personal information, or sensitive policy information should be shredded before disposal using a cross cut shredder. Any other records should be bundled up and disposed of to a waste paper merchant or disposed of in other appropriate ways. Do not put records in the dustbin or a skip unless there is no other alternative. There are companies who can provide confidential waste bins and other services which can be purchased to ensure that records are disposed of in an appropriate way.

The Freedom of Information Act 2000 requires the school to maintain a list of records which have been destroyed and who authorised their destruction. Members of staff should record at least:

- File reference (or other unique identifier);
- File title (or brief description);
- Number of files
- The name of the authorising officer
- Date action taken

This could be kept in an Excel spreadsheet or other database format.

ii. Transfer of records to the Archives

Where records have been identified as being worthy of permanent preservation arrangements should be made to transfer the records to a local record office.

iii. Transfer of information to other media

Where lengthy retention periods have been allocated to records, members of staff may wish to consider converting paper records to other media such as microform or digital media. The lifespan of the media and the ability to migrate data where necessary should always be considered.

Appendix A – Retention Schedule

This retention schedule contains recommended retention periods for the different record series created and maintained by schools in the course of their business. The schedule refers to all information regardless of the media in which it is stored.

Some of the retention periods are governed by statute. Others are guidelines following best practice. Every effort has been made to ensure that these retention periods are compliant with the requirements of the Data Protection Act 1998 and the Freedom of Information Act 2000.

Managing record series using these retention guidelines will be deemed to be “normal processing” under the legislation mentioned above. If record series are to be kept for longer or shorter periods than laid out in this document the reasons for this need to be documented.

This schedule should be reviewed on a regular basis.

Retention Schedule
